(2) itemized schedule by the permittee showing gross receipts, prizes, taxes, adjusted gross income, payments of net proceeds, and authorized expenses excluding operator fees;

(3) itemized schedule of authorized game related expenses, if not itemized separately in the statement of operations, or in the schedule under (2) of this subsection.

15 AAC 160.320. Demand upon bond or security
Except if under appeal with the department, the department will make demand on a bond or security if an operator refuses to pay an amount due to the department, including taxes, fees, penalties, and interest, or if after demand by an authorizing permittee, an operator refuses to pay otherwise undisputed net proceeds due to the authorizing permittee, the department will make demand on the bond or security posted by the operator under AS 05.15.122(b)(5).

15 AAC 160.330. Release of bond or security

(a) If the department determines that the requirements of (b) of this section have been met and two years have passed since the final day the operator conducted gaming activity on behalf of an authorized permittee, the department will release the remainder of a bond or security posted under AS 05.15.122(b)(5) in the following situations:

(1) the operator's license expired or was denied, suspended, or revoked;

(2) the operator has requested in writing to the department to release the bond or security.

(b) Before the department releases a bond or security under (a) of this section, the department must first determine that

(1) the operator has filed all reports due under AS 05.15.083, 05.15.087, and 05.15.165(e) and has paid all amounts due the state under AS 05.15; and

(2) repealed 11/10/96;

(3) a claim has not been filed in a court by a permittee against the bond.

(c) The department will, in its discretion, waive the two-year requirement in (a) of this section if each authorizing permittee covered by the bond or security certifies in writing that the permittee is not

(1) due any net proceeds from the operator; and

(2) aware of any violations of AS 05.15 or this chapter by the operator that have not previously been reported to the department.

Article 3
Vendors

15 AAC 160.340. Vendor contracts

(a) If a permittee enters into a contract described under AS 05.15.188, the permittee shall submit a copy of the contract to the department for inspection as allowed under AS 05.15.188(f).

(b) In addition to the requirements under AS 05.15.188, a contract between a permittee and a vendor must contain

(1) the beverage dispensary license number or package store license number of the vendor;

(2) a means for determining the amount of compensation to be paid to the vendor under AS 05.15.188(i);

(3) a plan for disposing of the pull-tab series if the permittee or the vendor is prohibited from selling pull-tabs; and (4) a method for handling receipts for prizes required under AS 05.15.187(i).

15 AAC 160.350. Registered vendor compensation

(a) A permittee may not pay, and a registered vendor may not accept permittee payment of, any expense incurred by the registered vendor that would cause the permittee to receive, in violation of AS 05.15.188, less than 70 percent of the ideal net of a pull-tab game sold to the vendor. A permittee may not engage in a sales transaction under AS 05.15 or this chapter with a person, whether licensed or not, who sells or provides gaming supplies or equipment to a third party, if the same sale made directly to the third party would result in a prohibited conflict of interest under AS 05.15 or this chapter.

(b) A registered vendor may not participate in a purchase inducement program prohibited by 15 AAC 160.942 or accept, as a gift, as a loan, or for rent at less than fair market value, a pull-tab point-of-sale system or pull-tab dispensing device from a third party, or from a distributor who supplies pull-tab games for a permittee for which the registered vendor sells pull-tab games. A registered vendor may not purchase, rent, or otherwise receive a pull-tab point-of-sale system or pull-tab dispensing device from a permittee even if the registered vendor provides fair market value for the system or device.

(c) A permittee may sell pull-tabs in premises that otherwise qualify as a vendor location, without the business in that premises becoming a registered vendor, and without the permittee receiving the payment required under AS 05.15.188(i) for any pull-tab series that the permittee sells, if

(1) the business is not paid or provided compensation other than lease payments;

(2) the lease is executed in accordance with 15 AAC 160.935(c);

(3) lease payments do not exceed the amount calculated under 15 AAC 160.935(c)(2);

(4) the sale of pull-tabs is conducted in a space separate and distinct from any area where alcoholic beverages are stored or dispensed;

(5) the sale of pull-tabs is conducted by employees or volunteers of the permittee; and

(6) the department has issued a permit for that location.

15 AAC 160.360. Vendor sales areas

A vendor may sell pull-tabs only in an area of an establishment that excludes a person under the age of 21 years unless the person is accompanied by a parent, guardian, or spouse who has attained the age of 21 years.

Article 4
Multiple-Beneficiary Permits and Self-Directed Permits

15 AAC 160.361. Multiple-beneficiary permits

(a) A municipality or qualified organization must obtain a permit under AS 05.15.020 before applying to become a member of a multiple-beneficiary permittee.

(b) A multiple-beneficiary permittee with fewer than six members may add an additional member by filing an amended application with the department, if the addition of the new member does not result in the multiple-beneficiary permit cumulatively having more than six members in a calendar year.

(c) An application for a multiple-beneficiary permit must include a copy of the joint venture agreement among the members, including the percentage of participation in gross receipts for each member.

(d) A multiple-beneficiary permittee shall allocate taxes, prizes, and expenses in the proportion that it allocates gross receipts among its members, but no member may be allocated a sales tax liability for sales that were not subject to a sales tax.

(e) A multiple-beneficiary permittee may allocate gross receipts, taxes, prizes or expenses to a new member only from the date that the department approves the addition of the new member.

(f) A multiple-beneficiary permittee may not allocate to an individual member permittee more than the annual prize limit for a municipality or qualified organization under AS 05.15.180(g) or 15 AAC 160.600(a).

(g) A multiple-beneficiary permittee shall pay net proceeds to its member permittees on a quarterly basis no later than the end of the month following the end of each calendar quarter.

(h) A multiple-beneficiary permittee may not spend or otherwise dedicate net proceeds except to distribute the net proceeds to its member permittees.

(i) A multiple-beneficiary permittee or its member permittees may not sublease gaming facilities to another multiple-beneficiary permittee or its member permittees at a price higher than that paid by the multiple-beneficiary permittee.

(j) The results of an action taken against a multiple-beneficiary permittee shall apply to the individual permits of those members of the multiple-beneficiary permittee who were members at the time of the violation that was the subject of the action.

(k) The department shall notify the primary member in charge of a multiple-beneficiary permittee regarding a violation by one of its member permittees of AS 05.15 or this chapter.

(l) Individual members of the multiple-beneficiary permittee shall jointly file the annual certified public accountant review required by 15 AAC 160.310(a).

(m) Each member of a multiple-beneficiary permittee must be actively involved in the gaming activities conducted by the multiple-beneficiary permittee, including management oversight, policy setting, and authorization of expenditures.

(n) A multiple-beneficiary permittee may not contract with an operator.

15 AAC 160.363. Contributions, loans, and gifts

(a) For use in gaming, an entity that conducts gaming under a self-directed permit may

(1) make a capital contribution from a non-gaming source; and

(2) secure a loan or accept a gift that is not from a gaming source or from a person or entity that is not prohibited from participating in gaming under AS 05.15.105.

(b) A member of a multiple-beneficiary permittee may make a capital contribution or loan from a non-gaming source to the multiple-beneficiary permittee.

(c) A multiple-beneficiary permittee may

(1) accept a capital contribution of non-gaming funds from a member;

(2) secure a loan or accept a gift that is not from a gaming source or from a person or entity that is not prohibited from participating in gaming under AS 05.15.105.

(d) A multiple-beneficiary permittee must notify the department within 10 days after the receipt of a capital contribution from a non-gaming source. The notice must include the name of the contributor, the amount of the contribution, and the date of the contribution.

(e) Except for a loan from a financial institution or a similar entity engaged in the business of making loans, a loan in any amount

(1) must be set out in a written loan agreement provided to the department; and

(2) may not provide for interest in excess of five percentage points above the annual rate charged member banks for advances by the 12th Federal Reserve District on the day that the loan commitment is made.

(f) A permittee or multiple-beneficiary permittee shall notify the department within 10 days of the receipt of a gift, other than a donated prize with a value less than $1,000, for use in gaming. The notice must include the name of the donor, a description of the gift, the amount or fair market value of the gift, and a statement signed and dated by the donor that the gift is irrevocable.

(g) The use of proceeds from a contribution, loan, or gift to purchase assets or to pay for gaming expenses does not change the accounting required by this chapter for gross receipts and expenses of gaming activities. The use of a contribution, gift, or loan to make the requirement for dedication of net proceeds has no effect in the determination of whether the limitation of AS 05.15.160 on expenses or the limitation of AS 05.15 and this chapter on prizes has been exceeded.

15 AAC 160.365. Manager of gaming

(a) A multiple-beneficiary permittee, and a permittee that engages in pull-tab sales or bingo under a self-directed permit, must designate the person who is its manager of gaming as defined in 15 AAC 160.995, and must notify the department within 10 days of a designation of a new manager of gaming.

(b) Unless the presumption is rebutted by other evidence, an employee of a multiple-beneficiary permittee or a permittee is presumed to be a manager of gaming if the employee is exempt from AS 23.10.050 - 23.10.150 (Alaska Wage

and Hour Act) under AS 23.10.055(9) for reasons other than being a salesman. A multiple-beneficiary permittee's or a permittee's designation of a person as its manager of gaming does not prevent the department from finding a different person to be the actual manager of gaming for the permittee.

(c) In determining who the manager of gaming is, the department will consider the totality of the circumstances, including the person's compensation from all gaming sources, and whether the person is an employee, makes policy, reports to the board of directors, reports to or interacts with the department, acts in a managerial or supervisory capacity, or supervises or evaluates employees who act in a managerial or supervisory capacity.

Article 5
Pull-Tab Games

15 AAC 160.370. Pull-tab manufacture

(a) Subject to AS 05.15, a pull-tab manufactured, sold, or distributed in the state must comply with the

(1) Standards on Pull-Tabs of the North American Gaming Regulators Association, as amended as of October 20, 1998 and adopted by reference; and

(2) Pull-Tab Record-Keeping and Reporting Standards of the North American Gaming Regulators Association, dated May 11, 1994 and adopted by reference.

(b) Except as provided under (a) of this section, a pull-tab manufactured, sold, or distributed in the state must

(1) be manufactured so that it is impossible to identify whether it is a winning or losing pull-tab until it has been played by a player as intended:

(2) be manufactured using at least a two-ply paper stock construction so that the pull-tab is opaque;

(3) have an individual serial number and the name of the manufacturer conspicuously printed on the face or cover of the pull-tab; and

(4) display to the player how to open the pull-tab to determine the winning symbols or numbers.

(c) Each pull-tab within a pull-tab series must

(1) be of the same length, width, and thickness, not varying by more than 3/64 of an inch in any dimension; and

(2) be color coded if an individual serial number is repeated.

(d) A licensed pull-tab manufacturer shall establish its own method of game protection that allows the manufacturer and the department to determine, after the pull-tab has been played, the difference between an authentic winning pull-tab and a non-winning, altered, or forged pull-tab. The manufacturer shall submit to the department a letter explaining the method of game protection used and shall inform the department of any changes in its method of game protection.

15 AAC 160.380. Pull-tab series assembly, packaging, and flare cards

(a) A licensed pull-tab manufacturer shall assemble and package a pull-tab series so that a winning pull-tab or the approximate location of a winning pull-tab cannot be determined before the pull-tab has been played by a player.

(b) A winning pull-tab must be distributed randomly among all other pull-tabs in its series.

(c) A pull-tab series must be packaged and clearly marked on the outside with the name of the licensed pull-tab manufacturer, the pull-tab serial number, and the name of the pull-tab game.

(d) If a pull-tab series is packaged in more than one container, the entire series of individual pull-tabs must be thoroughly mixed and distributed evenly among the containers so that a winning pull-tab, the approximate location of a winning pull-tab, or a concentration of winning pull-tabs cannot be determined before the pull-tab has been played by a player.

(e) With each pull-tab series, and except as provided in

(f) of this section, a pull-tab manufacturer shall include a flare card containing

(1) the name or registered trademark of the manufacturer;

(2) the name of the pull-tab series;

(3) the serial number of the pull-tab series;

(4) the number of pull-tabs in the series;

(5) the prize structure, including the number of winning pull-tabs in the series for each prize;

(6) the winning symbols or numbers for each prize in the series; and

(7) the price per pull-tab.

(f) A pull-tab manufacturer may have a seal card serve as a flare card in a pull-tab series, if the seal card meets the requirements of (e) of this section, 15 AAC 160.400, and 15 AAC 160.410 for a flare card.

15 AAC 160.390. Failure to comply
The department will refuse to allow a pull-tab series to be manufactured, sold, or distributed in the state if the series does not comply with AS 05.15 or this chapter, including the standards on pull-tabs of the North American Gaming Regulators Association, as amended from time to time.

15 AAC 160.400. State identification stamps

(a) The department will issue to a licensed pull-tab manufacturer a set of state identification stamps, imprinted with the same unique state identification number, to be used for identifying and tracking the sale and distribution of a series of pull-tabs.

(b) If a pull-tab series is available to the public for play, the accompanying flare card containing the state identification stamp must be displayed so that the flare card and state identification stamp are clearly visible to the gaming public. The flare card and state identification stamp must be displayed at all times while the pull-tab series is available to the public for play and must be removed when the series has been played out or removed from play for any reason.

15 AAC 160.410. Manufacturer distribution

(a) A licensed pull-tab manufacturer may distribute only those pull-tabs in this state that the manufacturer designed, constructed, assembled, and packaged.

(b) A licensed pull-tab manufacturer may not distribute a pull-tab series in this state to a licensed pull-tab distributor unless the manufacturer has

(1) affixed a state identification stamp on the face of the flare card accompanying the series of pull-tabs;

(2) included with the pull-tab series the remaining state identification labels from the set for use by the permittee, distributor, or operator, in accordance with other provisions of this chapter; and

(3) recorded the state identification number as required under this chapter.

(c) Repealed 6/22/2008.

(d) A licensed pull-tab manufacturer shall affix a packing slip outside of a shipment of pull-tabs to be shipped in this state. The packing slip must contain

(1) the name of the licensed pull-tab manufacturer;

(2) the pull-tab serial number;

(3) the date of packaging of the series;

(4) the name or identification of the person who packaged the shipment; and

(5) the state identification number.

15 AAC 160.420. Distributor distribution

(a) A pull-tab series distributed in this state by a licensed pull-tab distributor must be accompanied by a written invoice. The invoice must include the

(1) name and form number of the series;

(2) pull-tab serial number;

(3) state identification stamp number;

(4) distribution date;

(5) name and permit number or license number of the permittee, operator, or distributor who purchased the series;

(6) amount charged for the series;

(7) face amount of any coins or currency included with the series; and

(8) amount of pull-tab tax required under AS 05.15.184, except when an invoice is from one distributor to another distributor.

(b) A distributor may not distribute a pull-tab series unless the distributor has included with the pull-tab series the state identification stamps.

(c) A distributor must track the pull-tab games distributed and account for all pull-tab games purchased, sold, and in inventory. The inventory data maintained by the distributor must include the manufacturer's serial number, state identification stamp number, description, and form number. The distributor must explain any discrepancy or unaccounted pull-tab games.

15 AAC 160.430. Manufacturer's monthly report

The monthly report required under AS 05.15.181(e) must be submitted on a form provided by the department. The monthly report must include the following information for each pull-tab series distributed in this state by the licensed pull-tab manufacturer since the last required monthly report:

(1) the name and form number of the series;

(2) the pull-tab serial number;

(3) the state identification number;

(4) the name of the licensed pull-tab distributor to whom the series was distributed.

15 AAC 160.440. Distributor's monthly report

(a) The monthly report required under AS 05.15.183(d) must be submitted on a form provided by the department. The monthly report must include the following information for each pull-tab series distributed by the licensed pull-tab distributor since the last required monthly report:

(1) the name and form number of the series;

(2) the pull-tab serial number;

(3) the state identification number;

(4) the distribution date;

(5) the name of the manufacturer;

(6) the price per pull-tab;

(7) the pull-tab count;

(8) the expected gross pay out of prizes;

(9) the ideal net;

(10) the name of the permittee, operator, or licensed pull-tab distributor to whom the pull-tab series was distributed;

(11) repealed 1/1/2003;

(12) repealed 1/1/2003.

(b) A distributor shall maintain for three years immediately following the end of the calendar year of the sale a record of the price that the permittee or operator paid for each pull-tab series distributed. The distributor is not required to include this information in the monthly report made under AS 05.15.183(d), but must provide it to the department upon request.

15 AAC 160.450. Payment for pull-tabs

Within 30 days of actual delivery of a pull-tab series to a permittee, an operator on behalf of a permittee, or a receiving pull-tab distributor, the permittee, operator, or receiving distributor shall pay to the distributing distributor the full purchase price by check made payable to the distributing distributor.

15 AAC 160.460. Pull-tab tax

(a) The pull-tab tax required under AS 05.15.184 must be collected and paid to the department by the licensed pull-tab distributor that first distributes the pull-tab series to a permittee or an operator on behalf of a permittee.
(b) At the time the licensed pull-tab distributor files the monthly report required under AS 05.15.183(d), the distributor shall pay to the department the pull-tab tax required under AS 05.15.184 that the distributor collected or should have collected since the date the distributor filed its last monthly report.

(c) The pull-tab tax required by AS 05.15.184 shall be calculated on the ideal net of a pull-tab series, as established by the manufacturer, and exclusive of any additional prize that a permittee or operator may award for the last pull-tab sold in a series. A distributor may not add a prize to a pull-tab series for the last pull-tab sold from that series. Any prize awarded by a permittee or an operator for the last pull-tab sold, that is not included in the prize structure for the game as manufactured, when combined with the prize total for that pull-tab, if any, may not exceed the $500 limit in 15 AAC 160.480(a)(3), and any prize for the last pull-tab sold in a series must be reduced appropriately if the aggregate total would exceed $500.

15 AAC 160.470. Pull-tab games

(a) The sales price for a pull-tab may not exceed $2.

(b) A permittee, operator, or registered vendor may not sell a pull-tab that is marked, defaced, tampered with, in a condition that may deceive the gaming public, or in a condition that affects the chances of the gaming public winning or losing on that pull-tab. To protect the best interests of the public, a pull-tab series with a prize for the last pull-tab sold may not be combined with another series, even though the combination might be generally allowable under AS 05.15.187(c).

(c) Unless included in the definition of "cash prize" in 15 AAC 160.995, a

(1) pull-tab prize of $50 or more shall be paid only by cash or check; and

(2) non-cash item may not be awarded as a prize in a pull-tab game.

(d) A pull-tab prize of less than $50 may be traded for other pull-tabs, but must be accounted as a cash prize when preparing a report required under AS 05.15 or this chapter.

(e) A pull-tab series conducted under one permit may not be

(1) combined with a pull-tab series conducted under another permit; or

(2) transferred to another permit.

(f) A mechanical or electronic device may not be used to select the symbols or numbers used to determine the winners of a pull-tab game.

(g) Pull-tabs may not be sold to the public from the original packing box or container unless the container has been designed for retail sales, and the pull-tabs have been properly mixed.

(h) A permittee, operator, or registered vendor shall verify the identity of the individual redeeming winning pull-tabs of $50 or more.

(i) A permittee, operator, or registered vendor shall deface or punch all winning pull-tabs of $50 or more immediately after redemption.

(j) To close a pull-tab series, a permittee or operator may

(1) use pull-tabs from the series as door prizes;

(2) sell pull-tabs from the series at a discount; or

(3) offer a prize for the last pull-tab sold in the series.

(k) A permittee, operator, or registered vendor may not sell pull-tabs to an employee, an officer, a director, a member in charge, an alternate member in charge, a manager of gaming, a person who has access to pull-tab game information or accounting records, or a related party. For purposes of this subsection, a related party includes a direct relative or an affiliate of a person regulated by this chapter.

(l) A permittee, operator, or registered vendor may use a pull-tab dispensing device, with prior approval from the department, to dispense pull-tab games, but shall prohibit players from having direct access to the device.

(m) Unclaimed coins in a coin board must be awarded to the player who buys the last ticket to close out the game, and house rules must govern distribution of any

prize behind an unclaimed coin that is awarded to the buyer of the last ticket. The winner of an unclaimed prize in a seal card must be determined from the players in the seal card game under house rules. Any prize or aggregation of prizes awarded under this subsection is subject to the limitation set out in 15 AAC 160.480(a)(3).

(n) For purposes of 15 AAC 160.480(a)(3), a coin in a coin board is valued at face value.

(o) A player may not have any contact with a pull-tab contained in a jar, container, or dispensing device until the permittee, operator, or registered vendor has sold and provided the pull-tab to the player.

15 AAC 160.480. Limitation on pull-tab sales

(a) A pull-tab may not be sold in this state if

(1) the pull-tab series does not contain the entire prize structure;

(2) the prize structure of the pull-tab series is available at more than one location; or

(3) any prize or the prizes in aggregate on a single pull-tab in the pull-tab series exceed $500.

(b) A person must be 21 years of age or older to sell, purchase, or play a pull-tab.

(c) A person may not knowingly sell a pull-tab to a drunken person, as defined in AS 04.21.080.

(d) Repealed 11/10/96.

15 AAC 160.490. Withdrawal and destruction of pull-tab series
A pull-tab series must be withdrawn from sales if

(1) the permittee's prize award limitation, as identified in AS 05.15.180(g), has been reached for the calendar year; if the permittee is authorized to conduct pull-tab activities during the next calendar year, play of the withdrawn pull-tab series must be resumed when the new permit is received or at the beginning of the next calendar year, whichever is later;

(2) the operator stops conducting gaming activity under one permit and begins conducting gaming activity under another permit; if the operator resumes conducting gaming activities under the first permit, the withdrawn pull-tab must be returned to play immediately;

(3) the permittee terminates its contract with the operator; immediately following the date on which the permittee terminates its contract with the operator, the operator shall inventory the pull-tab series and return it, with the state identification stamps, to the permittee; if the permittee or the permittee's new operator resumes pull-tab activities, the withdrawn pull-tab series must be returned to play immediately;

(4) the pull-tabs are lost, stolen, or damaged, as long as the permittee or the operator submits the circumstances of the incident and subsequent withdrawal to the department in writing within ten days of the incident;

(5) the permittee discontinues pull-tab activity; all pull-tabs open for sale and in the possession of the permittee or the operator must be immediately withdrawn and destroyed under department supervision unless the department directs otherwise;

(6) the permittee's permit is suspended, revoked, or not renewed; all pull-tabs open for sale and still in the possession of the permittee or the operator must be immediately withdrawn and destroyed under department supervision unless the department directs otherwise;

(7) the department approves the withdrawal after receiving a written request from the permittee and determining that approval is necessary to protect the best interest of the public; the department will direct the permittee in handling the pull-tab series; or

(8) a manufacturing defect exists in the pull-tab series and the notice requirement under AS 05.15.187(d) is met within 10 days of discovery of the defect; the department will direct the disposition of the pull-tab series.

Article 6
Bingo
15 AAC 160.500. Alcohol access and employee play prohibited

(a) A bingo game may not be conducted under a permit in a room, enclosure, or outdoor area where alcoholic beverages are sold, served, or consumed during the process of the bingo game.

(b) A permittee or operator may adopt house rules that prohibit an employee from playing a game of bingo. The caller of a bingo game may not play a game of bingo conducted by the permittee at the location where the caller is working.

15 AAC 160.510. Bingo card sales

(a) A permittee or an operator shall establish the price for each bingo card, set of bingo cards, or packet of bingo cards before the start of sales for a bingo game or session. A bingo card, set of bingo cards, or packet of bingo cards may not be provided to a player for free, on credit, or at a discount, and the same price per card, whether paper or electronic, must be charged to all players.

(b) A bingo card must be sold at the location of the bingo game where it is to be played. The bingo card must be sold during or immediately before the session for which the bingo card is sold. A bingo card may not be sold if the sale allows a player an advantage over another player. The bingo card may only be played during the session for which the bingo card was sold.

(c) A permittee or operator may not reserve a bingo card or unit of electronic bingo paper for use by a particular player or group of players, and must provide bingo cards and electronic bingo paper to all interested players equally, for as long as bingo cards or units of electronic bingo paper are available, except a braille bingo card may be reserved for use by a player who has a vision impairment.

(d) A permittee or an operator that had annual gross receipts in bingo that exceeded $300,000 during the previous calendar year may not use hard cards.

15 AAC 160.520. Bingo receipting requirements

(a) A permittee or an operator shall provide a bingo sales receipt to a player for the bingo card, set of bingo cards, or packet of bingo cards at the time of initial purchase and payment is received from a player. A permittee or an operator shall retain a copy of the receipt for three years from the date that the receipt was issued.

(b) A permittee or an operator that had annual gross receipts from bingo that exceed $100,000 during the previous calendar year, or who expects to have gross

receipts from bingo in excess of $100,000 during the current calendar year, shall issue a sales receipt from a cash register. For purposes of calculating annual gross receipts under this subsection, an operator shall include gross receipts from bingo games conducted for all permittees who have authorized the operator to conduct bingo games on their behalf.

(c) Notwithstanding (b) of this section, a validated bingo sheet may serve in place of a cash register receipt for floor sales.

(d) A player must present the initial bingo sales receipt or validated bingo sheet for the bingo card, set of bingo cards, or packet of bingo cards being played to the permittee or operator in order to be awarded the prize for the bingo game.

15 AAC 160.530. Cash register receipts

(a) In providing a cash register receipt under 15 AAC 160.520(b), a permittee or operator shall comply with the following:

(1) a consecutively-numbered receipt from a cash register must be given to the player; the receipt must include the

(A) repealed 11/10/96;

(B) date of sale;

(C) amount of money paid;

(D) name of the location;

(2) a cash register must have a consecutive four-digit customer receipt number that does not return to zero until at least 9,999 receipts have been printed;

(3) a cash register must have sufficient keys to record separately each type of sale and must provide a total for each type of sale recorded; a cash register must retain these totals between uses even if its power source is interrupted;

(4) repealed 11/10/96;

(5) if a cash register is used by the permittee or operator for purposes other than recording the receipts from bingo, the internal cash register tapes from the other purposes must be retained for the time period required under 15 AAC 160.870(a).

is not verified, the permittee or operator shall resume the game by calling the ball drawn under this subsection.

If a player achieved bingo based upon the previous ball called, the player shall share the prize for the bingo game with a player, if any, who achieves bingo on the subsequent ball called.

(m) Once all declaring players' arrangements are verified, the permittee or operator shall award the prize for the bingo game to that player or players.

(d) Notwithstanding the approval given by the department under (a) of this section, the net proceeds and earnings being held for longer than one year are subject to the dissolution clause required under 15 AAC 160.020.

A signed statement from the landlord, contractor, or supplier of the goods or services must be submitted to the department by January 31. (1) record the payment due under the bond or restitution as a gaming asset;

(2) offset the amount of the theft or embezzlement loss with a credit in the amount of the recovery from the bond or restitution; and

(3) deposit amounts collected from the recovery from the bond or restitution into the bank account required by 15 AAC 160.820 and disburse the amounts within 30 days as a deferred payment of net proceeds to the permittees originally affected by the theft or embezzlement.

(d) For purposes of 15 AAC 160.880(a)(20), the deferred payments under (c) of this section shall be treated as a timely distribution of net proceeds to a permittee.

(e) Notwithstanding (a)(1) and (2) of this section, all expenses incurred in activity under AS 05.15 and this chapter must be included in reports filed under AS 05.15.080, 05.15.083, and 05.15.087.

(b) Except for good cause shown, a request for a grace period must be filed with the department in writing on or before the due date for the report or annual review

of financial records. The report or annual review of financial records must include a complete statement of the reason for the request. For the purposes of this subsection, "good cause" means a reason outside of the control of the permittee or licensee as determined by the department in its discretion.

(2) the department will provide copies of all documentary evidence on which it relied in reaching its determination;

(3) the notice of intent to revoke immediately shall provide the permittee, licensee, or registered vendor a period of time to show cause why the department should not immediately revoke the permit, license, or registration; the time allowed must be not less than five days nor more than 20 days from the day that the permittee, licensee, or registered vendor receives the notice; the permittee, licensee, or registered vendor may submit evidence as part of its response;

(4) if the permittee, licensee, or registered vendor does not file a response to the notice of intent to revoke immediately, the revocation becomes effective after expiration of the period of time allowed for response in the notice;

(6) regardless of whether the permittee, licensee, or registered vendor files a response to the notice of intent to revoke immediately, the permittee, licensee, or registered vendor has 15 days from the date that the immediate revocation becomes effective to appeal the revocation to a formal hearing under 15 AAC 160.910; notwithstanding the filing of an appeal, the permittee, licensee, or registered vendor may not engage in an activity requiring a permit, license, or registration beyond the effective date of the department's action unless the revocation has been administratively or judicially stayed.

15 AAC 160.886. Renewal of a permit, license, or registration

(4) if the permittee, licensee, or registered vendor does not file a response to the notice of intent to deny renewal, the denial becomes effective on the later of January 1 of the year for which renewal is sought or the expiration of any temporary permit or license issued to the applicant;

(5) if the permittee, licensee, or registered vendor files a response to the department's notice of intent to deny renewal, the department will provide for a review of the allegations, evidence, and response by an appeals officer in the tax division of the department who did not participate in the preparation of the original notice; the appeals officer will issue a written decision that either affirms or overrules the denial; the appeals officer may affirm for the reasons expressed in the original denial or for any reason supported by the record; if the record does not support a conclusion that the permittee, licensee, or registered vendor violated AS 05.15 or this chapter as alleged, or if the appeals officer determines that denial of renewal is not warranted, the appeals officer shall overrule the denial; if affirmed, the denial becomes effective on the later of January 1 of the year for which renewal is sought or the expiration of any temporary permit or license issued to the applicant;

(6) regardless of whether the permittee, licensee, or registered vendor files a response to the notice of intent to deny renewal, the permittee, licensee, or registered vendor has 15 days from the date the denial becomes effective to appeal the denial to a formal hearing under 15 AAC 160.910; notwithstanding the filing of an appeal, the permittee, licensee, or registered vendor may not engage in an activity requiring a permit, license, or registration beyond the effective date of the department's action unless the denial has been administratively or judicially stayed.
