### Re: Alaska Salmon Price Report

To Whom It May Concern:

Enclosed is the "Alaska Salmon Price Report" for the reporting period September-December 2006. The report is compiled from Alaska Salmon Price Report forms completed by processors required under Alaska statute AS 43.80. Please note that production areas H and I are not shown on the report. Due to confidentiality requirements, these areas would not have been reported; however, they are included in the statewide totals. The following will help you better understand this report:

#### **STATUTORY REQUIREMENTS**

1. The reporting threshold for processors is 1,000,000 pounds of salmon products sold at wholesale in the previous calendar year.
2. "Wholesale price" is the price paid by a nonaffiliated buyer to a processor or its affiliate, without deduction for costs of property sold, materials used, insurance, labor, services, labeling, transportation, storage, interest, losses, or any other expense.
3. "Quantity" is the quantity purchased by a nonaffiliated buyer from a processor or its affiliate.
4. No quality distinctions are made within each product form category.
5. "Production area" is where the product that was sold to the nonaffiliated buyer was last processed into a reportable salmon product form within Alaska by the processor or its affiliate.
6. The "product forms" are those listed in statute. These are the only product forms that are included in the Alaska Salmon Price Report database and are the only ones that the processors are required to report.

#### **CONFIDENTIALITY**

Information that could be used to identify the wholesale price or quantity for a particular fish processor is confidential information and will not be released to the public. Consequently, monthly data for many areas is not shown (asterisks) on the Alaska Salmon Price Report.
